 - biodegradable
 - lasts up to 30 hours
 - 3 year dispenser warranty

eliminates all flying & crawling insects

Innovair

RoboCan®

automatic outdoor insect control system eliminates all flying & crawling insects

The Innovair automatic outdoor insect control system containing natural pyrethrins and a mix of synthetic pyrethroids is specifically designed for use during outdoor activities.

MORE EFFECTIVE INSECT CONTROL THROUGH advanced MicroMist TECHNOLOGY™

The Innovair dispenser uses advanced MicroMist TECHNOLOGY™ which creates a mist of incredibly fine microparticles to repel insects.

Because it's a mist, not a spray, its more easily spread across the intended area leaving no residual insecticide. Therefore its more effective than ordinary insect sprays that simply fall to the ground.

- can be used for any outdoor occasion.
- controls insects around decks, pools, barbecues etc.
- automatically dispenses a fine mist every 20 seconds.
- safe to use around children and pets.

Innovair RoboCan Refill Cans

All are interchangeable with MicroMist™ dispensers.

Insect Repellent
185g (Contains Pyrethrins)
